

EUROPEAN NDR

GREYCORTEX *MENDEL*

**One solution for full visibility and security
across IT and OT networks**

- **NETWORK VISIBILITY**
- **THREAT DETECTION**
- **COMPLIANCE EVIDENCE**
- **INTEGRATION & RESPONSE**

Complete visibility

into your IT and OT networks

- Every device, user, and how they communicate
- Devices other tools can't see: OT, IoT, legacy systems
- New, lost and forgotten devices
- Suppliers and contractors connecting over VPN
- A risk score that shows which devices need attention

Powerful detection

of threats and anomalies,
explained and investigated
by AI

- Cyber-crime, ransomware, and data theft
- Security policy and segmentation violations
- Forgotten firewall exceptions
- Temporary vendor access never revoked
- Misconfigurations and changes to your network

The **AI Assistant** explains each alert and suggests what to check next.

Integration & response

with your security tools,
to stop threats faster

- Sends alerts straight to your SIEM, SOAR, or XDR
- Automatically blocks threats through your firewall, EDR or NAC
- Recommends the next actions to take
- Provides fully searchable data for your investigations
- Connects to your own tools through an open API

Our Satisfied Customers

WHAT OUR CUSTOMERS VALUE MOST

Local, European support

Real people who understand your business and regulatory needs.

A vendor that listens

Your feedback helps shape Mendel.

MANUFACTURING & PROCESSING

OT asset discovery
